## IS STILL HOPEFUL.

Salisbury Looks on Bright Side of Chinese Crisis.

HE DESIRES TO AVOID WAR.

Efforts of Foreign Troops to Relieve Comrades at Tien Tsin.

EXACT INFORMATION IS LACKING.

Rear Admiral Bruce Advises the British Admiralty of the Causes Leading Up to the Seizure of Taku—Other Points About the Trouble.

Washington, June 25.—The Chinese minister has asked an armistice in the sending of American troops to China, based on the assurance of Chinese viceroys that they can maintain order. President McKinley while acknowledging his gratification at these assurances, has made it known to the Chinese minister that the United States cannot relax its efforts to get troops to points where its officials are considered in danger.

London, June 25.—Lord Salisbury is still hopeful that the Chinese crisis will be solved without war against that country as a whole.

In spite of the alarming reports he inclines to the belief that the government of China, in some satisfactory form will shortly be able to reassert itself. He does not mean that he belittles the professions of the various viceroys who have given notice of their willingness to co-operate with the United States forces. Without committing himself to a definite view of the future, he appears averse to any scheme of territorial indemnity, which when order is restored, might be suggested by the powers who have suffered under the uprising.

The interview of the United States ambassador, Mr. Joseph H. Choate, with Lord Salisbury Saturday was due to instructions received from Secretary Hay in which the ambassador was notified of the friendly professions of the various viceroys and was instructed to secure Lord Salisbury's views.

Mr. Choate had not mentioned the crisis in the far east until he received Secretary Hay's cable message. Salisbury maintained the belief that the diplomats at Peking had not been massacred and did not believe they were likely to be. He is eminently satisfied with the action already taken by the United States. He expressed his determination to use every endeavor to restore order in the Pei-Ho valley and extricate the diplomats. His estimate of the situation was tinged with a spirit of hopefulness that contrasted greatly with the general tone of the British press.

### THE POWERS.

Are Hurrying Troops to Disturbed Districts in China.

London, June 25.—Although the powers at last seem conscious of the magnitude of the Chinese peril and are concertedly hurrying troops to Taku, the international troops available to overcome the immediate perils of the situation, are totally inadequate.

The alarm not only for the safety of Vice Admiral Seymour and his party, who are not mentioned in any of the dispatches purporting to come from Peking, but for his base at Tien Tsin, remain unrelieved. Almost the only ray of light is the report of Sheng, the director of railroads and telegraphs, forwarded by the French consul general at Shanghai, to the effect that the legations were safe June 19 and preparing to leave the capital with the consent of the Chinese government.

But the motives of the Chinese officials in keeping the powers appeased by reassuring messages is too obvious to allow the unreserved acceptance of the statements.

Tien Tsin is so hard pressed that it must be relieved before assistance can be sent to Seymour's force.

The absence of the exact dates of the last dispatch from Taku and other messages, makes it difficult to connect the various stories, but some of the dispatches might be read as indicating that even the large force mentioned by Rear Admiral Kempf as about to start towards Peking has met the same fate as the combined American and Russian column which was repulsed June 21.

India is sending eight battalions of infantry, a cavalry regiment, artillery

and engineers as a fighting force besides two battalions to guard communications.

The official Gazette of St. Petersburg contains an order of the czar, as follows: "As we consider it necessary to raise the troops in the Amur military district to a war footing, we direct the war minister to take the requisite measures." At the same time, we direct that the necessary number of reservists belonging to the Siberian Amur military district shall be called out for active service."

### Message From Brouce.

London, June 25.—The admiralty has received the following dispatch from Rear Admiral Bruce dated Taku vit Chefu, June 24: "The total force which left Tien Tsin with the commander-in-chief for Peking was about 2,000, composed of detachments from the allied ships. No action could possibly be taken to relieve the commander-in-chief because it was only known that he was cut off by Tien Tsin being invested. Tien Tsin has been fighting for its life ever since. It was on account of this information that the Chinese army had ordered trains for attacking Tien Tsin, that they were ravaging Tongku and reinforcing Taku, as well as mining the mouth of the Pei-Ho, that it was promptly determined to seize Taku. Since then every effort has been made to relieve Tien Tsin. I have commandeered a small coasting steamer for taking troops and sick and wounded across the bay to Wei-Hai-Wei, where I intend making a temporary hospital and asylum for refugees."

### Message From Lewis.

New York, June 25.—Richard C. Morse, general secretary of the international committee of the Young Men's Christian Association has received a cablegram from Robert E. Lewis, representative of the committee stationed at Shanghai dated June 2, which reads: "War is not likely to affect Shanghai. Lyon on way to Japan. Brooklyn on way Shanghai. There are four other representatives of the committee stationed in China. They are D. Willard Lyon at Peking, Robert R. Gailey Tien Tsin, F. S. Brockman Nankin and Walter J. Southam, Hongkong. Mr. Lyons' home is at Wooster, Ohio."

### May Be Intended For China.

San Francisco, June 25.—An order from Adjutant General Corbin has been received at the presidio directing that the troops of the Eighth cavalry shall be recruited to their full war strength. In view of the fact that this organization was ordered recently to proceed to Manila and the order to recruit to the limit is sent some time later, the opinion is expressed that the regiment is to be sent to China instead of the Philippines. The recruits will be selected from those now at the presidio.

### More Troops Have Arrived.

London, June 25.—In the house of commons, referring to the failure of the American and British forces to reach Tien Tsin June 21, the parliamentary secretary of the foreign office, Mr. St. John Broderick said that since the British troops from Hongkong had arrived at Taku, it was believed that 3,000 Japanese, 1,000 Germans and 2,000 French troops had also arrived there. But he added the government had no information regarding the later operations.

### Foreigners Are Safe.

Paris, June 25.—The French consul general at Shanghai reported that the Chinese minister of railroads and telegraphs, has informed him that all foreign ministers and foreigners at Peking were safe Tuesday, June 19, and were preparing to leave with the authority of the Chinese government.

### The Boer War.

London, June 25.—The information from South Africa continues so unimportant that the afternoon newspapers here are trying to make a sensation out of General Ian Hamilton breaking his collar bone by a fall from his horse. General Warren wires that the rebellion has been extinguished in the north of Cape Colony, but he does not mention the capture or dispersal of the considerable Boer force which have been occupying that part of the country. Interest mostly centers in the Orange River colony, where General Dewet is causing the British much annoyance.

### Shot Himself.

Columbus, O., June 25.—Henry Ross, a contractor and brother of ex-Sheriff James Ross, attempted suicide by shooting.

### Illinois Democrats.

Springfield, Ill., June 25.—There is no change in the situation in the Democratic contest for the gubernatorial nomination. Adam Ortsseifen, the Chicago candidate arrived accompanied by about 20 of his friends including a few delegates. He said: "I find a strong sentiment in favor of my nomination because I am a German, for it is not forgotten that our last Democratic governor, the only one elected in 40 years was a German." Nicholas E. Worthington, it is said, expects to receive the support of Cook county if it becomes plain that Ortsseifen's nomination is impossible.

### Tarvin's Candidacy.

Covington, Ky., June 25.—It was announced that Judge James P. Tarvin, president of the Ohio Valley Bimetallic league would be a candidate for the gubernatorial nomination before the Kentucky Democratic convention at Lexington, July 10. Judge Tarvin has been a candidate for the vice presidential nomination with Bryan, but his name will now be presented at Lexington instead of Kansas City. Judge Tarvin was the fellow-townsmen of William Goebel and presented the name of the latter at the Louisville convention a year ago.

### To Modify Goebel Law.

### Strike at St. Louis.

St. Louis, June 25.—In strike circles no trouble was reported anywhere on the lines of the St. Louis Transit company. All the lines were in operation, but with less than the usual number of cars. A large number of citizens are still patronizing the wagons and busses of the strikers, through sympathy for the men who are out or fear of the consequences of being caught riding on street cars. As the demonstrations against those who use the cars become less frequent, however, the number who patronize them increase. Owl cars are now being run regularly on the different lines of the Lindell division and on the Olive, Laclede avenue and Market street divisions. All night cars on the lines traversing the northern and southern sections of the city will be resumed as soon as it is thought safe to do so.

### Abandoned the Warpath.

Phoenix, A. T., June 25.—H. F. Gill of Philadelphia, who is here from a prospecting trip in Mexico, says the Yaqui Indians have nearly all abandoned the warpath. Several hundred are still hidden in the mountains and make an occasional descent on isolated ranches. Near Tomachio on Friday last a large party raided a ranche and killed two cowboys, wounded several others and one woman. They were driven off after a hard fight.

### The Dewey Cannon.

Three Oaks, Mich., June 25.—The program for the ceremonies connected with the unveiling of the Dewey cannon June 28 is substantially complete. The address of welcome on behalf of the state of Michigan will be delivered by General R. A. Alger and the oration of the day by William E. Barton, D.D., of Chicago. The unveiling of the Dewey cannon will be performed by Miss Helen Miller Gould.

New York, June 25.—The grand jury handed in a report to Judge McMahon in part 1 of general sessions in which they dismissed the cases of conspiracy against the officers of the American Ice company.

### CHICAGO EDITOR.

Becomes a Victim of Brights Disease and Dies at Mackinac.

Chicago, June 25.—Martin J. Russell, one of the proprietors and editor of the Chicago Chronicle, and for many years identified with the management of the Chicago newspapers, died at Mackinac Island of Bright's disease. Mr. Russell was born in Chicago in 1845. He served through the greater part of the civil war, gaining the rank of lieutenant. Upon his return from the war he became a reporter and worked his way up to the position he held at the time of his death. He held a number of local political offices and during the last administration of President Cleveland was collector of customs at Chicago.

Rose of Arkansas and others.

### To Withdraw Cuban Troops.

Washington, June 25.—As soon as Secretary Root returns to this city early next week final arrangements will be made for the withdrawal of as many troops as can be spared from further service in Cuba. According to reports recently received from Governor Wood the elections passed off quietly and without serious disorder at any point and affairs generally have become tranquil with no indications of future. In consequence of this encouraging state of affairs, the officials of the war department are considering the question of a large reduction of the military force in Cuba.

### Invited the President.

Washington, June 25.—A party of distinguished Georgians called on the president and invited him to visit Atlanta on July 20, the anniversary of the battle of Peachtree creek, which occurred on July 20, 1864. This anniversary is to be made the occasion of reunion of exunion and exconfederate soldiers who participated in that engagement. The fact that according to present arrangements the president will be in Canton on that date will prevent his visiting Atlanta on the 20th.

### Tobacco Plant Purchased.

Detroit, June 25.—The Detroit plant of the Tinfoil Tobacco company which was recently closed down was purchased by Oren Scotten in behalf of a new independent tobacco company. The consideration was \$200,000 cash. Mr. Scotten will resume business at the factory. The plant is that operated many years by the Daniel Scotten company which finally sold out to the trust.

### Class Day at Yale.

New Haven, Conn., June 25.—The class day exercises at Yale were held on the campus in the wooden amphitheatre constructed for that purpose. Many of them were from distant parts of the country, friends and relatives of the 327 members of the academic class.

### Ocmulgee Is Flooded.

Macon, Ga., June 25.—Owing to recent heavy rains the Ocmulgee river at this point is far above the danger line and is a raging torrent. The force of the water tore away a new bridge. The loss will be large. All the streams in this section are at flood tide but thus far trains, with the exception of the Atlanta division of the Southern railroad are running on time.

## THE WORK OF RESCUE

At the Scene of the Southern Railway Accident Continues.

DEATH LIST IS SHOCKINGLY LARGE.

Bodies of a Number of Negro Laborers Have Been Taken From the Wreckage But Few Have Been Identified.

Atlanta, June 25.—Additional reports received here from the scene of the wreck on the Macon branch of the Southern railway at MacDonough show that the list of the dead will probably number 41. The number of the gang of section hands which was on the wrecked train is not known. As the wreckage is being removed the bodies of negro laborers are being discovered and several have been found along the banks of the creek. They have not been identified. The entire gang was killed. Six bodies were brought here to await instructions from relatives as to their destination. The work of repairing the broken roadbed is proceeding and traffic will be resumed at once.

Three bodies were found in the wreckage. They are D. Y. Griffin, supervisor, W. L. Morrisette superintendent of pumps, J. H. Hunnicutt freight conductor, and two other bodies charred to pieces.

The passengers who were saved in the Pullman car were not seriously hurt.

There have been 30 bodies taken from the wreck and rescuers are finding more as the wreckage is removed.

One body can be seen under a heavy stone that cannot be removed. Rain continues falling but the railway officials are rushing the work of clearing the wreck and building a trestle. Eighteen of the bodies thus far recovered were employees of the road. Hundreds of people are visiting the wreck and scores are trying to identify their relatives and friends among the dead.

### Injunction Granted.

St. Louis, June 25.—Judge Elmer P. Adams of the United States district court granted a temporary injunction in the case of W. D. Mahon and all the members of Division No. 131 of the Amalgamated Association of Street Railway Employees of America restraining them from interfering in any way with the running of mail cars over the lines of the St. Louis Transit company. None of the defendants were present. They were represented by W. S. Anthony while District Attorneys Hitchcock and Risler acted for the government. In summing up the contents of the affidavits presented, Mr. Anthony declared that it was not shown that any of the defendants named had been guilty of lawlessness.

## DEMOCRATIC TICKET.

FOR CONGRESS,  
J. N. KEHOE, of Mason County.

**Generally fair to-night and Wednesday.**

JUDGE JAMES P. TARVIN, of Covington, has entered the gubernatorial race, making the fifth Democrat out after the honor.

THE wheat crop in the great Northwest is short, and very naturally the price is advancing. It need surprise no one to see it selling at a dollar in a few weeks. Luckily for Kentucky farmers the advance comes when it will do them some good.

It's very amusing, this talk of the Louisville Commercial about the National Republican convention "cheering to the echo Governor Taylor's utterances on the floor." Mr. Taylor did make one motion, which was the extent of his "utterances" on the floor. Boss Hanna wouldn't permit him to say anything else.

MR. MONNETT, who made a strong fight to drive the trusts out of Ohio while Attorney General of that State, speaking of the National platform adopted at Philadelphia last week, says his party is "long on promises, but short on performances" as far as the treatment of trusts is concerned. He calls attention to the fact that

In the past four years not a single new case has been entered against the trusts by any of the seventy-six District Attorneys of the United States, with the sole exception of Colonel Bundy, of Cincinnati. He made an effort to secure the indictment of the coal barons and make an example of them. Immediately he received telegraphic orders from the Attorney General of the United States to desist.

The Hannas are closely interested in the big coal trust, which undoubtedly accounts for the action of the Attorney General of the United States in calling off the prosecution of the coal barons. Right now as a result of this coal combine, the people are paying from 2 to 3 cents more for every bushel of coal they use. And they will keep on paying it, and next November many of them will march up to the polls and vote to keep the Hanna gang of robbers in control of the National Government. A man like Monnett as Attorney General of the United States could and would soon force the thieving trusts to an accounting or drive them out of existence, but the Republican party don't want him, a fact made very plain when they turned him down for his work as Attorney General of Ohio.

**"A DEPLORABLE INDISCRETION."**  
The Chicago Post, although a Republican paper, doesn't mince words in expressing its views on Taylor's appearance in the National Republican convention. It says:

Whoever brought about the exhibition of W. S. Taylor, former Governor of Kentucky, at the Philadelphia convention, committed a deplorable indiscretion. The move was theatrical in conception, but it utterly failed of the dramatic effect intended—to the credit of the delegates be it said. Taylor is now a fugitive from justice. The Governor of Indiana, in violation of his clear Constitutional duty, declined to surrender him to the authorities of Kentucky, and whoever goes out of his way to do him honor affronts the State of Kentucky, and not only the Democrats of that Commonwealth. The respect of the independents will not be gained by such bad taste and lack of tact.

Temporary Chairman Wolcott was as ostentatious as possible in his "recognition" of Taylor. He called him "Governor" and invited him to the platform, saying that the delegates wanted "to see him." His only business was the seconding of the nomination of the various temporary officials, and this he did in anything but impressive manner. He felt the awkwardness of his position, and to this was added the disappointment consequent upon the failure of the convention to enthrone over him. But why should it enthrone? Admit that Taylor was legally elected Governor of Kentucky and robbed by trickery of his office. That made him a victim, not a hero. His own conduct has not been heroic. It has not even been characterized by common sense and ordinary political sagacity. He has done his party in Kentucky no good, and perhaps not a little harm, by this arbitrary course, and certainly his refusal to face the charges pending against him and make a manly defense is neither courageous nor sensible.

It was foolish to elect him as a delegate, and it was even more foolish to attempt to lionize him before the convention. "Trust the people," declared Senator Hanna yesterday in his opening remarks. Taylor has not followed this principle. He has not trusted the people of Kentucky, their courts and juries. He prefers to remain under the cloud of a criminal indictment. Republican conventions are not in the habit of glorifying men of this stamp, and no new precedent is wanted now.

## PITIALE AND DISGUSTING

Is the Figure Taylor the Fugitive Is Exhibiting to the Country.

[Hunterdon, N. J., Democrat.]

The pitiable and disgusting sight of W. S. Taylor, who is indicted in the courts of Kentucky for taking part in the conspiracy which resulted in the cowardly assassination of Governor Goebel, running around seeking the protection from a trial through the refusal of the Governors of other States to recognize a requisition for him by Governor Beckham, of Kentucky, is only equaled in the lack of honesty possessed by Governor Mount, Indiana, protecting him by refusing to grant the requisition. It is well known that Taylor went to New York and importuned Governor Roosevelt to do just what Governor Mount is now doing, but be it ever to the credit of Governor Roosevelt that he refused to lend himself to any such a job. If Taylor had the least spark of manhood he would not humiliate his friends by thus skulking from his duties. Sooner or later he will have to face a trial for the indictment which has been found against him. From the first he has been an arrant coward and acted like a whipped cur. As soon as he had seized the Executive office, to which he knew he was not honestly or fairly elected, the first thing he did was to send his emissaries to the mountain district of Kentucky and bring into the State capitol the worst element that the State possesses, men whose only qualification is their being great rifle shooters and whose deadly family feuds for generations have made them disregard the value of human life as much as they would a hound dog. With these men swarming the Executive building and capitol grounds, he spent weeks before and after the assassination of Governor Goebel, much the same condition as a Hardscrabble rabbit the next day after the gunning season opens. No wonder he is becoming the object of the disgust of his own party in Kentucky, because a Kentuckian, who is worthy of the name, is a brave man and not a rabbit. Governor Mount's efforts to excuse himself for the position he takes is not worthy of an honest man.

## REPUBLICANS DOUBTFUL

Of Carrying This District, but Think Pugh Can Pull Through With Liberal Supply of Money.

WASHINGTON, June 22.—The Republican Congressional committee has decided to inaugurate a campaign of education in Kentucky at once. The Republican State leaders had a long conference with the party managers at Philadelphia and the conditions in the State were thoroughly discussed. Assurances were given that if the proper sort of a fight was made the electoral vote of the State could be captured for McKinley. The situation in the Congressional districts, it is understood, was described as particularly rosy from a Republican standpoint. Rhea, Turner and Gilbert, it was stated, would surely be succeeded by Republicans, and there was a good prospect of their carrying the districts represented by Berry and Fitzpatrick. Pugh's district was admitted to be doubtful, but it was claimed that hard work and a liberal supply of money would assure him success. It looks as though the Kentucky crowd had worked upon their fear of the loss of control of the next House to squeeze the Republican managers for a good-sized campaign contribution, and the indications are that they will get it, as it is an open secret that the Republicans are feeling very blue over the outlook.

## INCREASED RATE

Will Be Received By Kentucky For the Labor of the Convicts.

FRANKFORT, Ky., June 23.—The State Prison Commissioners closed a three-year contract to-day with the Mason & Ford Company for the labor of 400 convicts in the prison shoe factory, at 40 cents per day each.

The old contract with the company, which was only 35 cents a day, was canceled.

The new contract brings \$6,000 a year more than the old to the State.

The Commissioners also leased the labor of fifty convicts at Eddyville prison to W. S. Bransford, of Nashville, Tenn., to make harness, at 45 cents per day each.

But there is no need to feel like that. Listen to J. W. Gardner, Idaville, Ind. He says: "Electric Bitters are just the thing for a man when he is all run down, and don't care whether he lives or dies. It did more to give me new strength and good appetite than anything I could take. I can now eat anything and have a new lease on life." Only 50 cents at J. J. Wood & Son's drug store. Every bottle guaranteed.

THE American Bishops taking part in the missionary celebration at London have won golden opinions for their eloquence and force. Commenting upon Bishop Doane's and Bishop Dudley's speeches, the Westminster Gazette, after referring to their wonderful flow of language, delightful wit, fire and force and the ease with which they passed from humor to pathos and back again declares: "One felt that our English speakers were simply not in it, and the rest of the speeches fell rather flat in consequence. They had something to say and knew how to say it in the most perfect form, and primate and premier leaned back in their chairs and laughed delightedly at this unexpected outburst of American forensic wit."

### "KENO" MAYS

Wanted at Ironton for Shooting at His Brother-in-law With Intent to Kill.

[Irontonian June 24th.]

J. W. Mays, known to his friends and the police as "Keno" Mays, is badly wanted by the local authorities on a charge of shooting with intent to kill. Mays is a native of Kentucky but came to this city some months ago to accept employment at the furnace.

Until Saturday he was employed at the old iron and steel furnace and was working with his brother-in-law, George Snyder. These two men have been on the outs for some time and from what could be learned of their differences it seems that family troubles are at the bottom of it all.

Friday Mays had Snyder arrested on a charge of disorderly conduct and this act did not strengthen the brotherly ties. The men worked Saturday and early that evening their troubles reached a startling climax when Mays pulled a gun from his pocket and fired five shots at Snyder, evidently with murderous intent. A fellow workman interfered when Mays pulled the gun and at the risk of his own life succeeded in saving Snyder's by grappling with the gun user.

Immediately after the shooting and apparently according to a previous arrangement Mays ran to the river where a man and a boat were waiting and before he could be intercepted was in Kentucky. The authorities at Maysville, "Keno's" home, will be notified to look out for and arrest the man.

### SERIOUS HITCH.

Work on New Depot Stopped—Claim That Brick Were Not Laid as Specifications Required.

Bridge Superintendent Stamler of the L. and N., who is superintending the construction of the new depot at this place, ordered the brick layers to stop work Monday about noon, and all operations have since been suspended.

The brick work is nearly half completed, probably. The claim is made that this part of the work has not been done in accordance with the specifications, the mortar joints, it is said, being too large.

Mr. Stamler notified the workmen that the walls would have to be torn away down to the stone watershed and then rebuilt in accordance with specifications.

Mr. Craig, who is the leading contractor, was expected here this morning from Covington. If the walls have to be torn down and rebuilt it means a serious delay in the work and a heavy loss to the contractors.

## JAILER'S CLEVER RUSE.

Caged An Intractable Lunatic By Asking His Aid In Capturing W. S. Taylor.

[Harrodsburg Democrat]

Some time since William Henry was sent to the Lexington Insane Asylum from this county. After remaining there for several months he was pronounced cured and sent home. Recently he has again showed signs of derangement and threatened the life of his mother. Becoming alarmed for their safety the family sent for an officer the other day to take the unbalanced man in charge. Jailer David Chatham went out, but as soon as William espied him he, with a terrible oath, told the officer that if he ever got him back to the asylum he would have to take him there dead. Knowing that Henry was a rip-snorting Democrat, the Jailer told him that he wanted him to go to Indiana to help catch Taylor. This so pleased the crazy man that it came near tickling him to death, and he instantly lost all his belligerency, and went with the Jailer, who made a bee-line for the Burgin depot. On board the cars Henry proclaimed his mission to every one, and said they did not propose to do anything with Taylor until they got him on this side of the Ohio river and then they would hang him to the first tree they came to. This jolly manner was kept up until they got to the asylum gate when the prisoner stopped and, with a dangerous look, said: "Dave, you have been telling me a d—n lie!"

"The persuasive powers of the Jailer were again brought into play, and he told Henry that it was necessary that he stay in the asylum awhile before they went after fugitive Taylor. This satisfied the prisoner and he walked into the asylum as meekly as a lamb."

## THE PROHIBITIONISTS.

Sentiment In Favor of John G. Woolley For President.

Chicago, June 25.—Sentiment among the delegates to the Prohibition national convention to be held here favored the nomination for president of John G. Woolley of Chicago. The fight this year it was stated would be made on a straight Prohibition platform, even perhaps to the exclusion of all other national questions. Mr. Woolley is the chief advocate of this plan of campaign and would not care to be nominated on a broader platform taking in the tariff, expansion, money and other planks. For this reason, according to Chairman Stewart of the national committee and other Prohibition leaders, he is considered the most logical candidate for the presidency. Hale Johnson of Newton, Ill., and Dr. Swallow of Pennsylvania have many friends, however, and a brisk contest is expected before a nomination is made.

The nomination for the vice presidency will probably be governed to a great extent by the result of the ballot for the presidency. Should a western candidate for the presidency be selected for the vice presidential nomination it is stated will probably go to an eastern man, W. W. Smith of Poughkeepsie, N. Y., being the most prominently mentioned in that connection. If an eastern man is nominated, Dr. E. L. Eaton of Des Moines, or Prof. F. T. McWhirter of Indianapolis who is also spoken of for permanent chairman of the convention may be nominated for vice president.

Regardless of the hundreds of rafts that have passed out of the Big Sandy river lately, the banks are still lined, and one can walk almost to Louisa on the rafts.

The Monongahela River Consolidated Coal and Coke Company has decided to operate steadily on the Kanawha river. The concern has several mines along that stream and was unable to take advantage of the recent rise on account of not having any craft there. Three towboats will locate on the river named and will take care of and tow the output of the mines to lower river points when there is water enough. The plan has been decided upon in order to supply the Cincinnati and Louisville markets with coal during the months when the upper Ohio is too low to permit coal being sent.

## Don't Be Blind To Facts You Should Know

The Testing of the Eyes by a competent Optician is not a matter of guess work, nor is it a matter of trying on glasses promiscuously, but it is a science governed by principles which none but a person who

has studied the science of Optics can understand. We have, with years of experience and close application to properly fitting of glasses to the sight, acquired the knowledge of knowing how, a fact which certainly gives us a great advantage.
